SEMINAR

Non-Classical Lie symmetry analysis to the nonlinear time-fractional differential equations

SPEAKER   : **Mir Sajjad Hashemi**

DATE   : **26 March, 2019**

TIME   : **13:30**

PLACE   : **Çankaya University (Central Campus), R-213**

In this presentation, Lie symmetry method is discussed for some time fractional differential equations and then the non-classical Lie symmetry method is firstly introduced for fractional differential equations. Some infinitesimals are extracted too

All interested are cordially invited.

ADDRESS : Eskişehir Yolu 29.km, 06810, Etimesgut/ANKARA
